DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record neither shows nor suggest a joined body of a first member made of a metal and a second member made of a ceramic or a cermet, comprised of, in part, a main phase comprising a porous bone structure with open pores and made of a sintered product of powder of a metal, and the main phase further comprising ceramic composition layer impregnated into the open pores in the porous bone structure each of the intermediate ceramic composition layer and the impregnated ceramic composition layer has a crystallinity of more than 50%, along with the other limitations of the claim.

Due to their dependency, claims 2-15 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
